“Even hard years are filled with multiple occasions for gratitude”

Buddy Stallings

We are the United Way of Northern New York, serving the people of Jefferson, Lewis and St. Lawrence Counties. Money raised in each county stays there. United Way is working 365 days a year to get help to the most people in need here at home. Help that offers a hand up. We are committed to seeing that our community promotes individual responsibility, health and wellness.

A gift of any amount – made once or over time – can make a real difference this year when added together with those of friends, neighbors or co-workers.

If you are already contacted through the workplace, we thank you. If not, the enclosed gift card is your opportunity to be a part of something that really can strengthen our community.

With our thanks for your generosity to those in need here at home.

My house is in a nice quiet working class neighborhood. One morning I opened up my paper to read that a two year child, a girl, has been beaten to death. Beaten to death! To make matters worse, the child lived in an apartment half a block from my house. Sad and angry, I determined that somehow I would make sure this didn't happen to another child.

I called United Way and they put me in touch with Court Appointed Special Advocates (CASA). CASA is a program where volunteers, after much training, are appointed by the family court judge to be the eyes and ears of a child or children who have come from abusive home situations and the family is in court.

Now I am the eyes and ears for the well-being of these children. I speak with the parents, the teachers, the social workers, the counselors – with all the grown-ups who are responsible for sorting out the lives of these children. And I speak with the children as well. The court system takes a long time but I am sticking with it. The Judge has said that my report is going to be important.

My recommendation is going to be part of an important turning point for these kids. I want their lives to turn out well. They will very likely not remember me, but I will know that I helped to protect and care for them so that they could have a better life. The kind of life every child deserves.

United Way is funding CASA at \$15,000 for 2010. They could use \$22,000. Right now, we need United Way more than ever.
